LEGACY AROUND THE WORLD

100th Show Legacy Special

PAGE 1/1

LEGACY PROJECT

Initial Email Request to Selected Doctor

Dear <<Selected Doctor>>,

I hope this email finds you and your family in great health and spirits and enjoying the summertime.

This email is a special request for your participation in the 100th Ruddle Show special that will launch later this year. The topic of this show will be “LEGACY,” so maybe you can see why I am coming to you ☺ In this last episode of the year, our goal is to show several 1-2 minute videos from a few clinicians who I personally admire and respect for my own reasons, but who have also contributed greatly to our noble profession and have positively impacted many lives.

I am asking for a 1-2 minute video of you talking about something to do with your Legacy. It can be informal and filmed with your phone or computer. For example, if you are a professor, you might want to talk about your Legacy in terms of teaching. Maybe you want to talk about your inventions, research, or publications. Maybe you want to talk about the impact you have had on your patients, or even how you have impacted others. It would be interesting to know if your Legacy came accidentally, by design, or through sustained hard work.

If you would like to be a part of this Legacy Show, please let me know by **Friday, August 2**. (The final assignment will be due October 16).

If you agree, I will send specific follow-up instructions that will address this assignment, spark ideas, and provide you with a powerful platform where you can help others intentionally navigate their own futures and legacies by design. I would be humbled to have your participation and look forward to hearing from you.

Best wishes,
Cliff
